

**SHAMROCK ENTERPRISES INC.  
MANAGEMENT'S DISCUSSION & ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS  
FOR THE PERIOD ENDED NOVEMBER 30, 2015**

---

To the Shareholders of Shamrock Enterprises Inc.

This Management Discussion and Analysis ("MD&A") provides a detailed analysis of the business of Shamrock Resources Inc. (the "Company") and compares its financial results for the three month period ended November 30, 2015 to the same period in the previous year. The MD&A should be read in conjunction with the interim financial statements of the Company and related notes, which have been prepared in accordance with International Financial Reporting Standards ("IFRS"). Refer also to Note 3 of the May 31, 2015 audited financial statements for disclosure of the Company's significant accounting policies and a discussion of future accounting policy changes. The Company's reporting currency is the Canadian dollar and all amounts in this MD&A are expressed in the Canadian dollar. Management is responsible for the interim financial statements referred to in this MD&A. The Audit Committee reviews the interim financial statements and MD&A, and recommends approval to the Company's Board of Directors.

### **CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS**

This MD&A contains certain statements that may constitute "forward-looking statements". Forward-looking statements include but are not limited to, statements regarding future anticipated business developments and the timing thereof, and business and financing plans. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are typically identified by words such as: believe, expect, anticipate, intend, estimate, postulate and similar expressions, or which by their nature refer to future events. The Company cautions investors that any forward-looking statements made by the Company are not guarantees of future performance, and that actual results may differ materially from those in forward looking statements as a result of various factors, including, but not limited to, the Company's ability to continue its projected growth, to raise the necessary capital or to be fully able to implement its business strategies.

This MD&A is current as at January 29, 2016.

Additional information relating to the Company can be located on the SEDAR website at [www.sedar.com](http://www.sedar.com).

### **OVERVIEW**

Shamrock Enterprises Inc. ("Shamrock" or the "Company") was incorporated in British Columbia on April 17, 2008 pursuant to the provisions of the *Business Corporations Act* (British Columbia) and is a reporting company in British Columbia, Alberta and Ontario. The Company is a Vancouver-based mineral exploration company engaged in the acquisition and exploration of a precious and base metals project known as the Fireweed Property (the "Property") in northwest British Columbia, Canada. The Company's fiscal year end is May 31.

The British Columbia Securities Commission issued a receipt for the Company's final IPO prospectus on September 15, 2010. On November 10, 2010, the Company completed its Initial Public Offering of securities and commenced trading on the Canadian National Stock Exchange, now known as the Canadian Securities Exchange ("CSE") under stock symbol SRS.

### **QUARTERLY HIGHLIGHTS**

During the quarter, the Company entered into discussions with Regulus Resources Inc. ("Regulus") regarding a further amendment to its agreement for the Fireweed property, located in the Omineca Mining Division, Babine Lake Area, Smithers, British Columbia, Canada. This will supersede the amendment negotiated on August 17, 2015 which extended the cash payment and minimum work expenditure commitments originally due February 17, 2015 and later, August 17, 2015, to November 17, 2015. Discussions regarding the further, definitive amendment, which is intended to be reflective

of current market conditions, were in an advanced stage as of January 29, 2016, and the Property owner has agreed that all commitment deadlines and payments are on hold until finalization of the negotiations.

The Company is continuing its efforts to raise financing.

**FIREWEED PROPERTY – BRITISH COLUMBIA**

The Property includes 8 Mineral claims totalling 2,411 Hectares (24.11 square kilometers) as illustrated in the accompanying claim sketch below. The Fireweed property is owned outright by Regulus Resources Ltd. (formerly Pachamama Resources Ltd.) (the "Optionor"), a TSXV listed junior public company.

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties. The Company investigated title to mineral properties optioned or otherwise, and to the best of its knowledge, the vendor's title to all of its properties are in good standing as of the date of the MD&A.

**Fireweed Developments**

The Company released assay results from its Phase I drill program as summarized in its February 1, 2011 news release and Phase II drill results were announced on April 18, 2012 news release. The Company has also completed a 43-101 compliant technical report including the assessment report from Phase I and Phase II and a recommendation for Phase III diamond drilling program.

The Company made accumulated payments of \$200,000 and issued 1,200,000 shares in accordance with the Letter of Understanding with the Optionor, as amended January 18, 2013, November 25, 2013, February 11, 2015 and August 17, 2015 and has spent \$946,083 (May 31, 2015: \$946,083) in cash exploration expenditures for its Fireweed property to November 30, 2015.

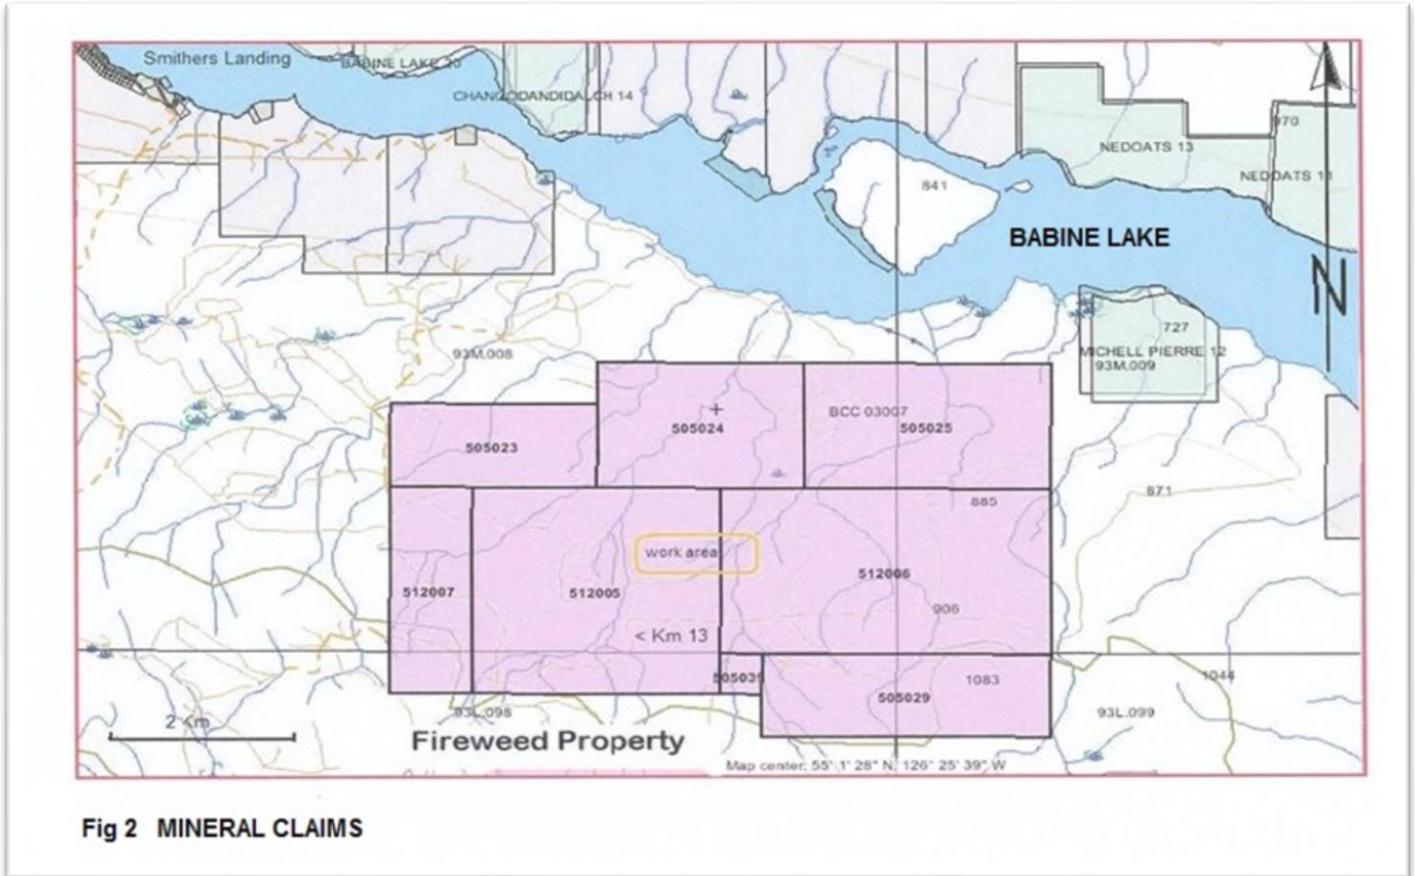

**Outlook for the Upcoming Year**

Subject to successfully raising adequate working capital, for the upcoming 2016 year the Company plans to carry out a Phase III drill program on the Fireweed Silver Property.

**Option Earn-In**

On February 17, 2010 ("Effective Date"), the Company entered into an option agreement with Regulus Resources Inc. (formerly Pachamama Resources Ltd.) to acquire an initial 50% interest, with an option to earn up to 70% in 8 mineral property claims located in the Omineca Mining Division in British Columbia, Canada. On January 18, 2013, the option agreement was re-negotiated to extend the expenditure commitment due dates, and cash payment. This extension was further re-negotiated on November 25, 2013 revising the commitments as disclosed below. Under the terms of the option agreement extension, the Company issued an additional 100,000 shares with a fair value of \$7,000 for the January 21, 2013 extension, and issued an additional 100,000 shares valued at \$4,000 for the November 25, 2013 extension.

On February 11, 2015 and on August 17, 2015 the Company negotiated additional extensions to its property option agreement whereby the cash payment and minimum work expenditure commitments due on February 17, 2015 and then on August 17, 2015, were due on November 17, 2015. As noted above, discussions regarding a further amendment were in an advanced stage as of January 29, 2016 and the Property owner has agreed that all commitment deadlines and payments are on hold until finalization of the negotiations.

The following is a schedule of work expenditure and share issuance commitments:

<b>Year Ended On</b>	<b>Annual Work Expenditure</b>	<b>Cumulative Total</b>
	\$	\$
1 <sup>st</sup> Anniversary of Effective Date (completed fiscal 2011)	200,000	200,000
2 <sup>nd</sup> Anniversary of Effective Date (completed fiscal 2012)	450,000	650,000
August 17, 2014 (completed fiscal 2015)	200,000	850,000
5 <sup>th</sup> Anniversary of Effective Date (due February 17, 2015: on hold pending finalization of current negotiations)	450,000	1,300,000

The Company is also committed to making land tenure payments to keep the property in good standing during the term of the option.

In addition to the work expenditures and cash, Shamrock was also required to issue and deliver (now completed) the following shares of its capital stock to the third party to maintain and exercise the option:

<b>Due Date</b>	<b>Share Issuances</b>	<b>Value at Issue</b>
		\$
Within 5 business days of the listing of the Company's shares on the Canadian National Stock Exchange (issued fiscal 2011)	100,000	35,000
1 <sup>st</sup> Anniversary of the Effective Date (issued fiscal 2011)	200,000	66,000
2 <sup>nd</sup> Anniversary of the Effective Date (issued fiscal 2012)	200,000	34,000
3 <sup>rd</sup> Anniversary of the Effective Date (issued fiscal 2013)	250,000	15,000
4 <sup>th</sup> Anniversary of the Effective Date (issued fiscal 2014)	250,000	12,500
<b>Total</b>	<b>1,000,000</b>	<b>162,500</b>

Upon completing the above payments and work expenditures and exercising the Option to acquire a 50% interest in the Property, the Company may elect to earn an additional 10% interest in the Property for an aggregate interest of 60%. To exercise the Option to earn an additional 10% interest in the Property, the Company must complete a feasibility study within three years of exercising the Option. If the Company elects to earn the 60% interest in the Property and fails to complete the feasibility study within the three year period, its interest in the Property will be diluted to 35% and the Optionor will become the operator of the Property.

Upon earning an aggregate 60% interest in the Property, the Company may elect to earn an additional 10% interest in the Property for an aggregate interest of 70%. To exercise the Option to earn an additional 10% interest in the Property, the Company must advance the project to production within three years of earning the 60% interest in the Property by incurring the following annual construction expenditures:

<b>Date of Expenditure Commitment</b>	<b>Amount of Capital Expenditure</b>
1 <sup>st</sup> anniversary of the exercise of the 60% Option	10% of capital expenditure as set out in the feasibility study
2 <sup>nd</sup> anniversary of the exercise of the 60% Option	30% of capital expenditure as set out in the feasibility study
3 <sup>rd</sup> anniversary of the exercise of the 60% Option	60% of capital expenditure as set out in the feasibility study

If the Company elects to earn the 70% interest in the Property and fails to advance the project to production within the three year period, its interest in the Property will be diluted to 50% and the Optionor will become the operator of the Property.

During the term of the Letter of Understanding, the Company will be the operator of the Property. Upon the Company earning an aggregate 50%, 60% or 70% interest in the Property, as the case maybe, and not electing to earn any additional

interest, the parties will enter into a joint venture for the further development of the Property. The Company shall be the operator of the joint venture as long as its interest in the Property is 50% or greater.

The Property is subject to an underlying royalty in favour of Terry Lewis Eldridge based on a net smelter returns royalty equal to: (a) one percent (1%) of any mineral production derived from the Property during the first twelve (12) months of such production, and (b) two percent (2%) thereafter, excepting that the total underlying royalty payments shall not exceed a sum of \$5,000,000. For the purposes of calculating the underlying royalty, "net smelter returns" means the net payment received from a smelter or refinery from the sale of any precious or base metals recovered from a shipment of ore or concentrate from the Property to the smelter or refinery (including any bonuses paid by the smelter or refinery) after deduction by the smelter or refinery of handling, assaying, processing, smelting, sales charges, and penalties and direct production taxes, if any, less the cost of transporting the ore or concentrate to the smelter or refinery, but specifically excluding the cost of mining or milling.

## **RESULTS OF OPERATIONS**

### *Three Months Ended November 30, 2015 and Comparable Prior Period Analysis*

The Company incurred an overall loss of \$12,015 for the current period compared to \$65,012 for the same quarterly period in the prior year. The Company has continued to conserve working capital while the capital markets are experiencing a significant slowdown in mineral property exploration financings. The effect of the Company's cost saving efforts can be particularly seen in the decreases in Management fees and Professional fees, both of which were \$Nil in the current period.

### *Expected Volatility in Results of Operations*

An analysis of the quarterly results over the last eight quarters shows a substantial variance which can be attributed to the Company incurring varying professional, and office and general costs period over period. The Company's operations consist of evaluating, acquiring and exploring mineral properties for the purpose of discovering economically recoverable reserves. In addition, the Company is actively seeking equity financing to fund the current mineral property option commitments. The Company will continue to incur period expenditures towards these goals. The timing and impact of such period expenditures cannot be accurately predicted due to the volatile nature of the company's business operations.

## LIQUIDITY AND CAPITAL RESOURCES

The Company is in the exploration stage and therefore has no cash flow from operations. Its only source of funds since incorporation has been from the sale of shares. From the date of incorporation on April 17, 2008 to November 30, 2015, the Company has raised \$2,361,406 from the sale of shares for cash through the issuance of 15,588,166 shares.

No shares, warrants or options were issued in the current quarter.

At November 30, 2015, current assets were \$10,834 (May 31, 2015 - \$10,272) and current liabilities were \$282,086 (May 31, 2015 - \$307,687) resulting in a negative working capital of \$271,252 (May 31, 2015 - negative \$297,415). The equity markets are currently experiencing a slowdown in financings for mineral property exploration projects. As a result of this, there is continuing downward pressure on the Company's liquid assets.

At November 30, 2015 the Company had total assets of \$1,137,417 (May 31, 2015 - \$1,136,855). The principal assets are sales tax receivable, comprised of GST input tax credits, of \$9,496 (May 31, 2015 - \$8,971), restricted investment of \$7,000 (May 31, 2015 - \$7,000) and mineral property interests of \$1,119,583 (May 31, 2015 - \$1,119,583) for the Fireweed Property. Liabilities decreased by approximately \$26,000 since May 31, 2015, due mainly to reductions in accounts payable and amounts due to related parties.

Cash flow used in operations in the current six month period (\$40,498) was approximately \$6,000 more than that used in the equivalent quarter in the prior year (\$34,708). The impact on cash flows of the decreased loss in the current period (\$19,406 versus \$143,559) was mainly offset by the change in amounts due to related parties (an increase of \$135,250 in the 2014 period and a decrease of \$17,675 in the 2015 period).

## SELECTED SHARE CAPITAL DATA

### *Share Capital Structure*

As at January 29, 2016 the Company's share capital structure is as follows:

<b>Security</b>	<b>Amount</b>
Common shares	18,728,166
Stock options	1,150,000
Warrants	2,982,726
<b>Total</b>	<b>22,860,892</b>

## FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

		November 30, 2015	May 31, 2015
		\$	\$
FVTPL financial assets	a	1,338	1,301
Other receivables	b	9,496	8,971
Other financial liabilities	c	222,375	307,687

- a. *Fair Value Through Profit and Loss* (FVTPL): Comprised of cash, and short-term investments.  
b. Comprised of receivables consisting of refundable sales tax credits paid for purchases.  
c. Comprised of accounts payable, accrued liabilities, loans payable and amounts due to related parties.

The Company has determined the estimated fair values of its financial instruments based on appropriate valuation methodologies; however, considerable judgment is required to develop these estimates. Cash and short-term investments are carried at fair value using a level 1 fair value measurement. The fair values of accounts payable, accrued liabilities, loans payable and due to related parties approximate their carrying values due to the short-term nature of these instruments.

### Management of Industry and Financial Risk

The Company is engaged primarily in mineral exploration and manages related industry risk issues directly. The Company may be at risk for environmental issues and fluctuations in commodity pricing. Management is not aware of and does not anticipate any significant environmental remediation costs or liabilities in respect of its current operations.

The Company's financial instruments are exposed to certain financial risks, which include the following:

#### *Credit risk*

Credit risk is the risk of loss due to the counterparty's inability to meet its obligations. The Company's exposure to credit risk is on its cash and HST recoverable. Risk associated with cash is managed through the use of major Canadian bank. The Company's HST recoverable is due from the Government of Canada; therefore, the credit risk exposure is low.

#### *Liquidity risk*

Liquidity risk is the risk that the Company will encounter difficulties in meeting obligations when they become due. The Company ensures that there is sufficient capital in order to meet short-term operating requirements, after taking into account the Company's cash. The Company's cash is held in corporate bank accounts available on demand.

#### *Market Risk*

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and price risk.

##### *Currency Risk*

The Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars; therefore, currency risk is minimal.

##### *Interest Rate Risk*

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to significant interest rate risk.

---

*Price Risk*

The Company is exposed to price risk with respect to equity prices. Price risk as it relates to the Company is defined as the potential adverse impact on the Company's ability to finance due to movements in individual equity prices or general movements in the level of the stock market. The Company closely monitors individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company.

**RELATED PARTY TRANSACTIONS**

The value of transactions during the quarter and outstanding balances relating to key officers and directors and entities over which they have control or significant influence were as follows:

The Company incurred \$Nil (November 30, 2014 – \$36,741) in management fees provided by a director and interim Chief Financial Officer. In addition, the Company incurred \$Nil (November 30, 2014 – \$6,500) for office rent and storage costs from the director. As at November 30, 2015, the Company owed the director \$97,710 (May 31, 2015 - \$97,710) for expenses incurred on behalf of the Company, unpaid rent, and unpaid management fees, plus \$21,000 (May 31, 2015 - \$21,000) for loan advances.

The Company incurred \$Nil (November 30, 2014 – \$15,000) of professional fees from a company controlled by its Corporate Secretary for corporate secretarial services performed. As at November 30, 2015, the Company owed \$44,365 (May 31, 2015 - \$44,365) to the officer's company for corporate secretarial services performed.

The Company incurred \$Nil (November 30, 2014 – \$36,000) of fees from a company controlled by a director and Chief Executive Officer for business development and management services performed. As at November 30, 2015, the Company owed \$77,300 (May 31, 2015 - \$94,975) to the director's company.

The Company incurred \$Nil (November 30, 2014 – \$3,000) of geologist fees from a director. As at November 30, 2015, the Company owed \$3,000 (May 31, 2015 - \$3,000) to the director for geologist services performed.

Amounts due to related parties are unsecured, non-interest bearing and without specified repayment terms.

**OFF-BALANCE SHEET TRANSACTIONS**

The Company has not entered into any significant off-balance sheet arrangements or commitments.

**CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS**

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual experience may differ from these estimates and assumptions.

The effect of a change in accounting estimate is recognized prospectively by including it in comprehensive income in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

**SHAMROCK ENTERPRISES INC.  
MANAGEMENT'S DISCUSSION & ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS  
FOR THE PERIOD ENDED NOVEMBER 30, 2015**

---

Information about critical accounting estimates and judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements are discussed below:

*Judgements*

*Exploration and evaluation expenditures*

The application of the Company's accounting policy for exploration and evaluation expenditure requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after an expenditure is capitalized, information becomes available suggesting that the recovery of the expenditure is unlikely, the amount capitalized is written off in the profit or loss in the period the new information becomes available.

*Title to mineral property interests*

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

*Estimates*

*Share-based payment transactions*

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 8 to the financial statements.

*Basis of measurement*

These financial statements have been prepared on a historical cost basis except for financial instruments that have been measured at fair value. In addition, these financial statements have been prepared, except for cash flow information, using the accrual basis of accounting. These financial statements are presented in Canadian dollars unless otherwise noted, which is the functional currency of the Company.

**PROPOSED TRANSACTIONS**

The Company does not have any proposed transactions as at the date of this MD&A.

**RISK AND UNCERTAINTIES**

The Company is in the mineral exploration and development business and as such is exposed to a number of risks and uncertainties that are not uncommon to other companies in the same business.

Some of the possible risks include the following:

- a) The industry is capital intensive and subject to fluctuations in precious metal prices, market sentiment, and interest rates.

**SHAMROCK ENTERPRISES INC.  
MANAGEMENT'S DISCUSSION & ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS  
FOR THE PERIOD ENDED NOVEMBER 30, 2015**

- b) The only source of future funds for further exploration programs, or if such exploration programs are successful for the development of economic ore bodies and commencement of commercial production thereon, which are presently available to the Company are the sale of equity capital or the offering by the Company of an interest in its properties to be earned by another party carrying out further exploration or development. Management has been successful in accessing the equity markets during the year, but there is no assurance that such sources will be available on acceptable terms in the future.
- c) Any future equity financings by the Company for the purpose of raising additional capital may result in substantial dilution to the holdings of existing shareholders.
- d) The operations of the Company may require licenses and permits from various governmental authorities in Canada. There is no assurance that the Company will be successful in obtaining the necessary licenses and permits in the future.
- e) There is no certainty that the properties which the Company has deferred as assets on its balance sheet will be realized at the amounts recorded. These amounts should not be taken to reflect realizable value.
